Your wedding day is a magical time, a story to pass on to future generations, full of fun and emotions. Why settle for a limited number of strictly posed photographs when you can have the real fun documented in the modern, relaxed, candid style.

Our storybook wedding albums capture those memories along with all of the detail of your wedding day, presented in an individual artistic album and safely archived onto digital disc for future generations.

As a specialist reportage photographer with over 10 years wedding & commercial reportage experience, I have a natural instinct for capturing those 'decisive moments' !

The best photographs come when you can relax and enjoy your day. Why try to set up and recreate photographs that actually happen with real emotion? By shooting unlimited images, I can constantly follow the whole day's events and provide you with a collection of natural images from which you simply choose the ones you like.

As well as keeping your group photographs relaxed and fun I also aim to photograph all of your friends and family in a relaxed contemporary style. With black & white photography you do not have the distractions of colour and can creatively capture images that command a unique attention to detail.

Our fee includes;

photography in colour and black & white.

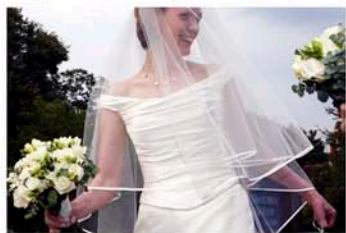

Unlimited photoshoot / relaxed reportage style / group photos as required.

All consultation & planning / friendly flexible service.

Digital proof galleries on CD of all of the photographs with additional copies of the proofs for both families on CD.

Selection of printed proof prints & contact sheets.

Hand printed photographs & contemporary album. + a master copy of every original photograph taken, supplied on an archived DVD.

report ' n. *account, statement*
